Why

Syrian Medicare 2026?

Highlighting the latest recent developments in such various fields as medical, pharmaceutical, laboratory, hospital and dental technologies, **Syrian Medicare 2026** is considered an effective marketing tool by meeting the relevant specialized customers, traders and manufacturers directly (Exporters, Importers, Doctors, Decision Makers, Businessmen, and all relevant medical personnel).

Keeping visitors abreast of the latest medical happenings; **Syrian Medicare 2026** welcomes great Turkish and Indian company presence.

Considering artificial intelligence that dominates the world, **Syrian Medicare 2026** Event is not only a golden opportunity to exchange expertise and enhance collaboration between the public and private sectors, but also creates job opportunities for all – thus supporting economic and social reconstruction.

Syrian Medicare 2026 is recommended to visit by all private and public medical and pharmaceutical sectors in the Arab and foreign countries.

Syrian Medicare Chain has not only been able to introduce new leading medical equipment companies for the Syrian and regional medical markets, but also the show used to insure the attending of the most ideal and professional medical visitors.

Syrian Medicare 2026:

Due to the end of the war, lifting the sanctions imposed on Syria and the need of the local market and hospitals for medical and pharmaceutical equipment demands, the upcoming 19th edition of **Syrian Medicare 2026** will witness a major leap in the region through the participation of many Arab and foreign countries and local medical and pharmaceutical companies,

Syrian Healthcare Sector Facts:

The Health Sector in the Syrian Arab Republic is divided between several sides:

- 1- The Ministry of Health included **2053** health units (**1864** units are related directly to MOH). The remaining units are related to private bodies such as primary health care centers, emergency medical points, specialized medical centers and comprehensive clinics. There are also **100** Hospitals: **76** General Hospitals are under the Ministry of Health purview as well as **33** General Assemblies of Hospitals, until the end of **2019**.
- 2- **14** Educational Hospital are under the Ministry of Higher Education purview.

A promising Step Towards future investing Project

- 3- The Ministries of Defense and interior are by military medical services and their medical providers (dispensaries and hospitals).
- 4- There are community centers, medical clinics and **391** accredited private hospitals.

The Syrian Health Sector Damages during the Syrian Crisis:

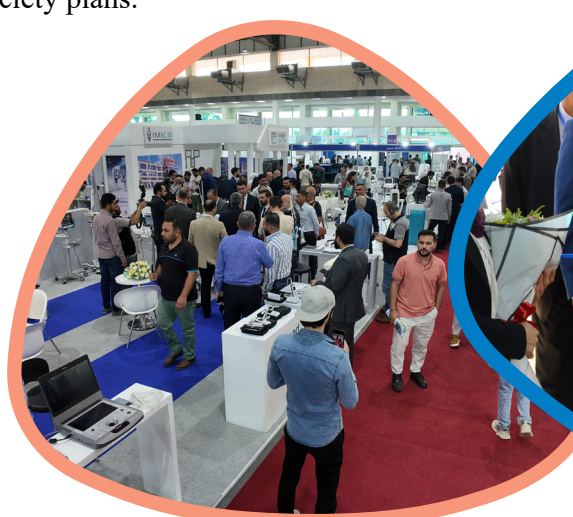

As in all sectors, the Health Sector in Syria has been heavily affected, especially the Ministry of Health. It suffered damage to approximately **685** health units between partial and total damage. **46** hospitals were exposed to mentioned structural damage (**10** fully and **36** partially damage hospitals in **2019**) as well as the hospitals of the Ministry of Higher Education such as Al Kindi Hospital in Aleppo Governorate. Moreover, the damage of some pharmaceutical factories in different regions resulted in out of service units or working in alternative locations.

However, the new Syrian **Government initiates a Comprehensive National Program for Post-Crisis Syria** focusing on recovery and reconstruction. It involves rebuilding infrastructure, restoring essential services like healthcare, and ensuring a transition from the relief phase to sustainability. Concurrently, UN Agencies like ESCWA have developed frameworks such as the National Agenda for the Future of Syria (NAFS). Other efforts include the National Development Program for Post-War Syria (Syria Strategic Plan 2030). It serves as a consultative framework for government, private sector, and civil society plans.

Investment in the Health Sector before 2025:

The Government of the Syrian Arab Republic is fully aware of where it is going through the ratification of the comprehensive national program for post-crisis Syria.

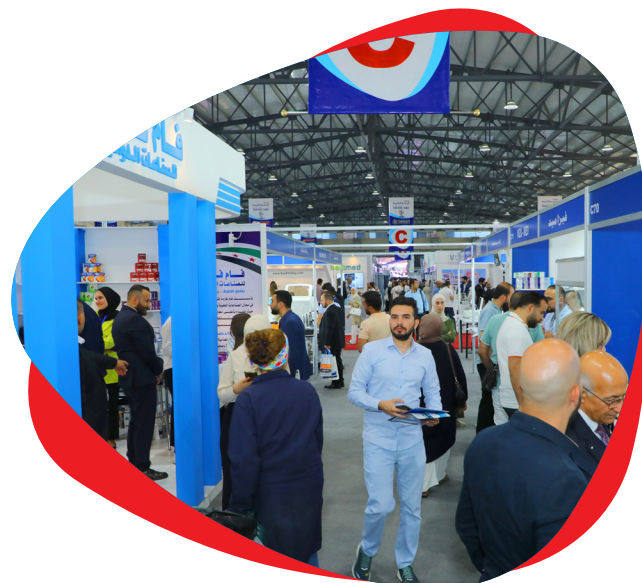

It carries the vision, objectives, aspirations, programs and projects promising for Syria to move qualitatively from relief phase to recovery phase, then to sustainability in order to achieve the complementary situation in the economic health sector through the process of reconstruction and restoration of infrastructure and the provision of medical equipment necessary for the continuity and sustainability of public health.

It is an encouraged phase in the next stages for the optimal investments in health economic sector field at all levels, in the light of the following:

- 1 - The needs to rehabilitate the destroyed health facilities and complete the requirements of performing its work in the best form by providing with the various medical equipment and supplies, especially after the great destruction caused by the crisis.
- 2 - The qualitative expansion in the geography of the health sector in most of the governorates of the Syrian Arab Republic and the opening of new centers and hospitals such as:
 - General Authority of Shahba Hospital in As-Suwayda Governorate.
 - General Authority of Children's Hospital in Tartous Governorate.
 - Damascus Oncology Hospital Project in Damascus Governorate (Doumar Area).
 - Project of the Physical Treatment Building and the Center of Artificial Limbs in the Ibn Al-Nafis Complex – Damascus Governorate.
 - Martyr Dr. Ibrahim Naama Hospital in Lattakia Governorate (Jabla city)
 - General Assembly of Homs National Hospital in Homs Governorate.
- 3 - The increase in the number of health services, which amounted, for example, to nearly 53 million services in 2019, provided only by the Ministry of Health in all its facilities.

The completion of the rehabilitation of medical facilities, equipped with the best equipment required, the various medical supplies and qualified medical staff to provide with the best medical services, is

a major goal of the Syrian government in order to ensure that the health sector in Syria will maintain its reputation and emulate the advanced countries in medical field at all levels and specializations.

Why Exhibit at Syrian Medicare 2026?

Syrian Medicare event is the largest gathering of healthcare and trade professionals in the Middle East. Not only will the 19th edition celebrate the presence of the Turkish Pavilion, but also the Indian Pavilion offering a unique platform for all medical, pharmaceutical, laboratory, hospital and dental industries to gather under one umbrella in a promising market.

1. Perform Second to None Sales and Lead Opportunities:

Floors are buzzing with action as thousands of attendee's searches for solutions that meet their unique needs. With a careful marketing strategy, your brand can stand out from the rest and drive foot traffic into your exhibit.

2. Take Advantage of Face-to-Face Marketing:

This offers unique opportunities to:

- Successfully close sales and generate leads in a relaxed face-to-face environment.

*Your Trustworthy Guide to
Challenging Medical Equipment &
Pharmaceutical Markets*

- Personally meet with existing customers so as to strengthen brand loyalty.
- Professionally create lasting business relationships with other vendors and industry bodies.

3. Boost Brand Visibility:

From small businesses to large corporations, **Syrian Medicare 2026** provides unique opportunities so as to increase exposure and connect to consumers on a personal level.

4. Research Your Industry & Competition:

At **Syrian Medicare 2026**, businesses stand shoulder-to-shoulder with other big names within the medical, pharmaceutical, laboratory, hospital and dental industries. Exhibitors shall not only seize the opportunity to learn from their competitors and network with professionals, but also walk the floor to observe products display, engagement tactics as well as sales pitches so as to take note of how they can improve at the next event.

5. Build Lasting Relationships within Your Industry:

Every business relies on a community of other businesses to some capacity; strong business relationships are about being mutually beneficial to one another. **Syrian Medicare 2026** brings related companies under one roof.

6. Showcase New Products & Services:

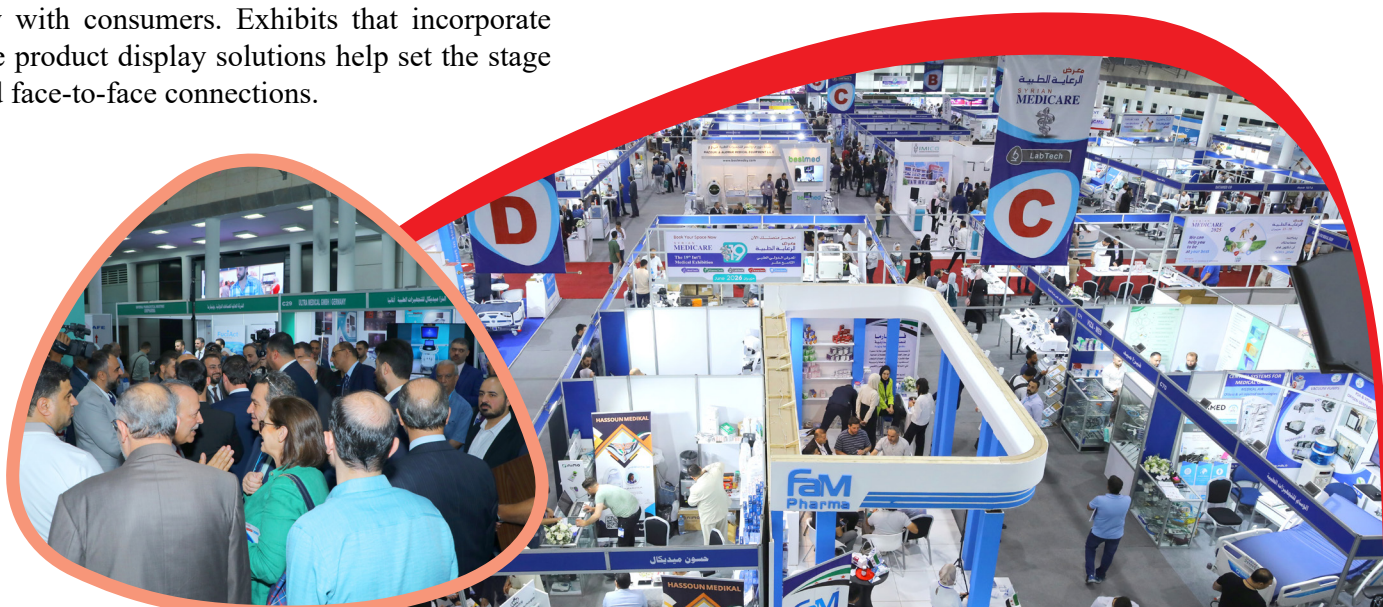

Launching a new product at **Syrian Medicare 2026** is the best way to maximize exposure and connect directly with consumers. Exhibits that incorporate creative product display solutions help set the stage to build face-to-face connections.

7. Listen to Customer Feedback:

Syrian Medicare 2026 presents the unique opportunity to receive real-time feedback on your products and services. Understanding how customers interact with your brand provides valuable insight that will help your company improve along with customized marketing efforts.

Good Reasons to visit Syrian Medicare 2026:

1. Gain knowledge and exposure to new trends, products and resources that are available for your retail business or wholesale company.
2. Stimulate new ideas and creative ways to support your business despite the economy, past seasons and more. Where you will gain this knowledge is endless – your competition at the show, your general experience at the show and even your participation at Syrian Medicare will make an impact.
3. Meet other retailers and vendors who you can lean on, gain from and possibly gain business.
4. Learn what your competition is up to without having to go to great lengths since their business information will be easily accessible.
5. Expose yourself to the press attending the event so they know about your business - retail or wholesale.
6. Generate leads for strategic alliances and most importantly, potential customers.
7. Participate in educational seminars, networking events and surveys that only take place at trade shows and will expose you to new people, new business and new ways of thinking for your business success.

8. Get answers right away, whether from a vendor or a retailer, since trade shows allow for immediate communication and easy, accessible outlets of exposure for both vendors and retailers.
9. Become educated on your industry so that you can better support your clients and customers by utilizing all the resources that Syrian Medicare event offer.

Government Patronage & Supports
